2006 Annual Meeting

Called to order by Floyd Yardley. Minutes read and approved. Unamous approval.

Commissioners Report.

85,410 acre ft. Beaver City

North Creek ~~&~~ ~~Lak~~ 800 second feet. No way to measure them because of high water.

Washed out measuring device at 3 creeks.

Started Drawing water ~~of~~ out Lakes 19th July - 20 ft. out of 7 lakes.

Minersville Resivor on ~~Feb 15~~ June 1st 21,700

Today 19,006 in Minersville

3 Creeks overflowed till June 10th

Merchant Valley	7.2	78%
Big Flat	10.6	85%
Kimberly	8.2	78%

Motion made to accept Commissioners report and unamoulsy accepted.

Need to do something to stop gravel in Canal before diversion. All measuring devices washed out below Patterson dam. Measuring devices need to be in before they get water. State Office will send a letter telling them to put in. Barton, Emerson Aberdare & Furnace ditches. Aberdare wells need to be measured. Aberdare well is not to be turned on until ditch gets below 13 second feet. ~~and all water~~

Minersville said that the past agreement ~~is~~ not in effect ~~or~~ and if this is the case they need to stop sending 15 days in spring & 15 days in ~~spring~~ fall to Minersville. 8 second feet in creek on 1st July in 2004. Floyd said there is a spring in the bottom of resivor that flows 10 second feet

Alan Wood said why should they plant willows when they have had to ~~take~~ them out.

Clark Carter asked what can be done to fix stream beds.

You have to get permits to alter channel from the state.

Mr Simms talked about enforcement of water law. Law says state has authority to enforce & correct fine ~~for~~ for violations of past year. Collect cost of enforcement. $1,000 a day - penalty can be $5,000 in they know they're doing it. Replace double the water. Hired an enforcement engineer, Kerry Carpenter.

Water users and water commissioner can file report that must be in writing of violations

Meeting adourned at 11:50 a.m.
