WATER DISE CEDAR CORRESPONDENCE FILE

Mike Silva
Division of Water Rights
P.O. Box 146300
Salt Lake City, Ut. 84114-6300

Lee H. Sim
Assistant State Engineer for
Field Services
P.O. Box 146300
SLC Ut. 84114-6300

Over the last decade I have attended meetings of the Cedar Valley Distribution System to point out how outdated and antiquated the list of users are. I have also written letters and made phone calls to the Divison of Water Rights to point out that George D Grimshaw (my father) passed away in 2001 and there are no longer water rights in his name and none in the names of his children.

This notice of Cedar Valley Distribution System Water Users was sent to my sister in Moticello, Ut. and I quote from her letter.

> Your efforts have so far been in vain. This letter comes addresed to George D and Henry Grimshaw in care of my address - I guess because I had Dad's mail forwarded to me after he died. I keep worrying for fear one of these years they will be sending me a bill for thousands of dollars.

WATER RIGHTS
SALT LAKE

I share my sisters concern and wonder if it will take another decade before the Division of Water Rights is motivated to update the Water Users list to more acurately reflect thoes that own and use the water rights in Cedar Valley. These are the ones that should recieve the notice and the assesment.

Please take action and remove George D Grimshaw from all mailing and assesment lists and please notify me that this action has been completed.

Thank you Arlen D Grimshaw
485 E Churchfield Ln.
Enoch, Ut. 84721

P.S. I am aware that J Henry Grimshaw although deseased still has water rights as do his children
