Dear Lee Sim

I know this papers are late - Due to the Flu and 40 below weather, I had a hard time getting them finished.

Question How big a map? your letter states - to fit in a book. How big a book?

Also your letter states Feb 7 for a water meeting. But it did not say where. I can assume the Lupoint school house.

The assessments are done this way.

$6400.00 = 3/4 of this amount is billed to Mosby Irrig. Co. - then a $5.00 assessment is lieved to each Deep creek (13) Filing Holder - then the balance is charged to the Filing holders by the acre foot - per ft of water used.

If I can be of any more help. Call me. 722-5810

Thank you.
Chasman
