To Lee Sim

There are some water users on your assessment accounts that are confusing to me.

I do not have the records of Leon Brown, Keith M. Rudy, Lanar Drechiel or Bette F Bangerter or Jordan river state park.

on item (7) srplas canal the state division of wildlife resources have a about 30 CFS. I dont think this is quet right.

All other allotments for the wildlife resources on the Jordan river is confusing to me.

Bountiful conservancy district had 45 CFS was this transfired to wildlife resouses.

Also all the Tillmore water holding are confusing.

I was told the Tom Jarmey water 23.44 CFS half was transfired to the Black Hawk Duck Club (srplas canal) the other half. 11.72 CFS was retained in the river. ?

I hope your office can give the commissioner an up dated list to go by.

John E Moesser
