February 17, 1965

Logan
Reg. File

Mr. Lyman H. Johnson
Secretary Logan River Distribution System
R. F. D. #1
Logan, Utah

Dear Mr. Johnson:

Upon your recommendation, we contacted Mr. Daines and had to wait for his confirmation of acceptance of appointment as Logan River Water Commissioner. We will now proceed and appoint Mr. Daines as Logan River Water Commissioner for 1965.

I would like to take this opportunity to point out a correction in the minutes as submitted by you at our annual meeting. Reference is made to the 3rd Paragraph, Page 2, underlined in red on the copy enclosed. I did not in my remarks say that the Logan River Water Users were cheap; but rather pointed out that economically the training of a new man is sometimes overlooked. I suggest that the underlined section be deleted from the minutes. In the next sentence I believe we set February 15, 1965 as the date we would like your recommendation as to a new commissioner.

We trust this procedure is satisfactory.

Yours very truly,

Donald C. Norseth
DISTRIBUTION ENGINEER
