Attached are copies of documents showing what we have on the "legal file" for Pot Creek. Apparently it was set up by a "Memo of Understanding" in 1958 with extensions through 1968. Then proposed changes were filed which involved the approval of both parties - no documentation found on it. Dallin Jensen may have more but he is on vacation until May 21 and Mike Q. is not familiar with it.

This is just additional legal material from the Pot Creek Dist. file on the adjudication for your records. The information if the proposed determination could affect priority schedules, distribution agreements, etc.
