Dear Kent Jones, John Mann, Boyd Clayton, and Tera Wilhemson,

Recently the State Legislature changed the make up of the water committee from 6 democrats and 7 republicans to 3 democrats and 10 republicans.

Clearly, the misuse of water by SLC is becoming well known and the misuse of the legal system to sue small water users like myself in an attempt to maintain its stranglehold on water rights and water officials. SLC's using the CUP and others as unnamed alter egos to sponsor legislation to further their control over the water world but its not working as well as it has in the past.

Why doesn't SLC put their name on their water bills? The fact is, SLC is not well liked at the legislature, therefore, operating in the shadows of the CUP and the Water Task Force increases their legislative success rate. However, more and more people are onto SLC and their abuses including the falsehoods of their "Watershed Protection" propaganda.

I would greatly appreciate the Division of Water Rights acting on my change application which has been in the system for about a decade.

Cordially,

KT
