March 6, 1984

Meeting with State Engineer

11:00 a.m.

The financial report was read by a representative of the state engineer.

Commissioner Lynn Mendenhall gave a report on 1983's water delivery. He also ~~discussed~~ discussed the canyon weir's assessment and billing

The proposed budget was discussed. Red Riedlebacher moved to accept the budget. Gary Brown ~~2~~ seconded the motion. Motion passed. Lynn Mendenhall and Ron Davis were recommended for the positions of commissioner and deputy commissioner.

Minutes of the 1983 meeting were read and approved. Stewart Scherzer moved to approve the minutes and Alvin Anderson seconded the motion. ~~Motion passed~~

Lowell Olsen told the state representatives about the lack of cooperation between the state and the river companies when the state was draining Thatte lake. He noted that the extreme variations in the river's flow made it very difficult for the companies to keep their irrigation streams regulated. The companies had requested notification when large amounts of water were released but the state didn't notify downstream users and diversion dams.
