SALT LAKE

Randolph, Utah
June 8 - 1991

Hi Bob:

I am just bring you up on what is going on over here.

Mr. Bill Nielson is running a 15" Inch. Pipe Line from where he takes his water out of Spring Canyon over to his Storage Pond in New Canyon.

I think the Pipe Line is a good thing than he can't say I am getting his water.

Bob. he has also made a new Ditch along the hillon the South, and has the Gale Canyon Water running into Spring Canyon.

"Bill" has all the water running together it with the "15" In." Line he will be able to take all the water it put in the New Pond he is making over North of his Place.

May be I am wrong it I hope I am, but I am afraid that when I am done on Sept. 1st that is what he will do

I asked "Bill" where he was going to get the water to put in his new Pond. it he said, "he had it".

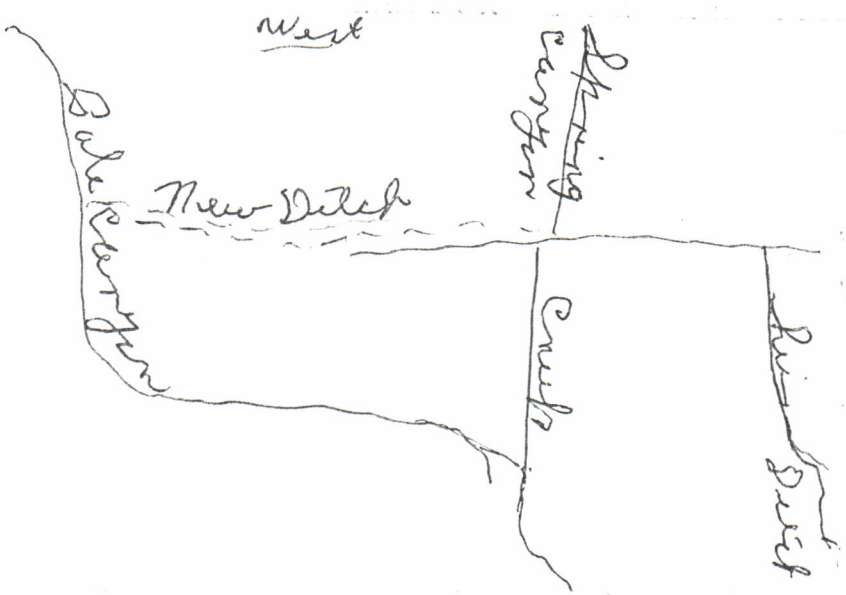
Bob, he never told any body he was going to do this, but I go up there all the time it I have kept up on it.

If he takes all the water he will burn the rest of the Valley up.

There is 10 Man down The Creek Who has Creek Water & if Bill Takes The Water They Will go dry.

: Maybe This is None of my bussiness but I fell I should lette you know.

I hope I am Wrong about this, I Guess Just Wait & See.

I am leaving on June 12 for Chicago & Will be Gone 10 days. be back 24th.


Thanks.
Bill Morris
