Memo

To: Bonnie Duncan, Distribution
From: Marge Tempest, Title
Re: 81-1142 (Virgin River Accts. 11 & 11A)
Date: 11-27-89

I have received updated title information correcting the amounts of water conveyed to Springdale Town (Acct. 11A). The flow for the account should be reduced to 1.33 cfs, and the flow for Springdale Consolidated Irr. Co. (Acct 11) should be increased to 2.64 cfs.

Please note that Springdale Town has been segregated out of its water right file 81-1142. It will now carry the file number of 81-3392. Therefore, the town will have the new number if you change account numbers to reflect water right numbers.

Also please note that the Utah Board of Water Resources has an interest in Springdale Consolidated Irr. Co. due to a loan. Perhaps they should receive a copy of the assessment notice for Acct No. 11.
