Hi Teresa,

This is to offer some clarification to my email dated May 24, 2013 and also my letter dated May 20, 2013:

Hydro Holdings, LLC is our holding company - holds our assets, ie., the land, buildings, water rights, etc., that go along with the power plant.

Cottonwood Hydro, LLC is our company that deals with day to day operations.

Both companies are owned/operated/managed by myself and my husband, Jim Williams.

Secondly, in regards to being Alta Energy's predecessors, I believe the six change applications that we talked about earlier are the ones that we are interested in knowing about. (in addition to any other pending water rights happenings up stream from us)

Thanks so much,  
Susannah
