Lonetree Wyo.
July 10, 1933.

Mr. State Engineer,
Dear Sir!

The people of Lonetree ask me to write you this letter, we want Mr George stall which is now water commissioner of this district, and in Utah on Burntfork we want you to give him the same authority on Beaver Creek to adjust that water he says he has no authority to Beaver creek he says it was an over sight some where. Beaver Creek lays the same as Burntfork part of it is in Utah.

Yours very truly
R. W. Hanks.
