Lonetree, Wyo.
June 12th 1931.

Mr George M. Bacon,
State Engineer of Utah.
Dear Sir.

I am writing you in regards to a water right which I would like to secure, for my Ranch, which is in Wyo. but lays right against the Utah line. There is a ditch that heads in Utah that covers this land, which I believe is known as the Whipple ditch This ditch has been in use and the Water used on this land for over 30 years to my knowledge, but has never been record I have owned this Ranch myself eight yea The ditch covers two Ranches the other belonging to Harry Bullock.

I wrote to Mr John A. Whiting State Engin at Cheyenne, and will enclose the letter I received from him.

It would be impossible to cover this land with a ditch with headgate in Wyo.

I have some fine Meadows and I feel that

(over)

the Ranch is entitled to a good water right as the water has been used on it so long. There has always been plenty of water in this end of the Country.

But I would like to have this water recorded as it makes the place so much more valuable.

Please let me know what can be done in this matter, and what I will have to do to get this water recorded.

Yours Respectively.

Alan L. Bullock.
