State Engineer Office
Salt Lake City, Utah.

Dear Sir:

I would like the information obtaining to the 'Edwards Canal' which you classed as number 2, two I think. But it is the canal that comes out of Burntfork just below the Inner State Canal. I would like a copy of the filings of this canal that you have on record, and the number of feet that it is entitled to. I would also like to know the number of feet a (160 acres) is entitled to and what the limit is in Utah.

Thanking you kindly.

Respt. Yours,

L. R. Beck
