State Engineers
Office.

McKennon Wyo.
Nov 3. 1942.

Dear Sir.

Inclose please find minutes of our meeting held August 8. 1942.

Also we would like to have you send us several township maps. large ones.

Also Blank affidavits for some of the old timers to sign.

Then a blue print for the head gates, all the head gates can be built the same size. We only want them about six feet wide and not over 4. ft high.

I talked to Mr Gamble and he thought we should go ahead and put the head gate in and get it done this fall and have the land plotted also.
If we need anything else we will write.
We appreciate you jogging us along.

Yours
Walter L. Russell.

Buntfork district.

Minutes of water meeting held August 8. 1942.

Minutes of the meeting held at Burntfork school house with State Engineer read and approved —

Letter from State Engineer on July 28. 1942. read, all were very pleased.

After some discussion all agreed to appoint a committee to plot the ground under each ditch and all agreed to abide by the discision of that committee.

The committee selected was as follows.

Walter L Russell
Earl Gamble.
Alton Beck.

Those present.
Claude Lodhir.
Lawerance Beck.
Bof Gamble.
Earl Gamble
Alton Beck.
Dick Ellsworth
Lewis Stall
W L. Russell
Harry Katzmyer.
Wm McGinnis.

This constituted a majority of water users in this district.
