Mr. J. H. Humphreys.

Dear Sir

I am writing in regards to your letter of June 4. The ditch My Father helped to build is the Edwards canal. ~~it is~~ I believe the information you have about him working for some one else was when he worked on a ditch for Mr Gamble I have been watering this place since 1928 and before that Mr. Frank A Mahoney. irrigated it.

Mr. Mahoney irrigated

the place after the
death of my Father.
I met Mr. Bulloch
a couple of weeks ago
and told him about the
water and he turned the
water out for this place.
When we met with Mr.
Bulloch we explained
as near as we could
about the water for all
the ditches out of Bunt
fork in Utah.
I believe that most
of the trouble over this
water is started by
Wyoming people.
There is plenty of

water for the 1 tak rights.
The land would be
worthless without the
water.
The water that I use
comes out of the same
canal as C. C. Galbreaths
the places join.
If there is any one that
claims that the water has
not been used on this
place I would like to
know who they are.

Yours Very Truly
Claude Sadler
