Burnt Fork, Wyo.
June 11-1936

Mr. J. H. Humphreys.
State Engineer,
Salt Lake City, Utah.

Dear Mr. Humphreys:

It is my understanding that the case of State Engineer of Utah vs. D. C. Jensen is still pending. Mr. Jensen is still taking the law in his own hands and is closing head-gates and cutting ditches again, on every ditch in the State of Utah diverting water from Burnt Fork Creek. This situation is intolerable and the water users cannot have this go on any longer.

I will personally guarantee all witness fees in this case, if you will see that the pending case is set for early hearing so that it may finally be disposed of. An agreement can be reached among the water users on Burnt Fork and everyone in the valley will be able to raise a crop, if Jensen can be restrained from his illegal intereference.

This represents a very vital problem to the water users on Burnt Fork, and we are anxious that something be done at once.

as stated above, I will personally guarantee the witness fees in the case, both for the past hearing and also for the hearing to come.

Please let me hear from you at once.

Yours very truly,

T. A. Welch
