Mr T. H Humphreys
Salt Lake City, Utah

Dear Sir;—

Mr Jensen has been cutting the Mushrat Spring ditch, the Ballie Springs and the Gilles ditches.

This morning I took and posted the ditches with men and caught him in the act.

His boy was with him and he sent him home to get his car, and told him to meet him at the cross roads, so when we got down to where his car was his boy was standing to one side, and he said stop a minute so I can speak to my boy, the driver slowed up and the car hadn't come to a stop when he jumped out & jumped in his car.

I said to the boys dont let him get in his car, but he was to fast as the car was moving time he jumped in.

We went to his place and his wife said she didnot know where he was nor didnt think he would come with us with out a warrant for his arrest.

He is sure doing plenty of ditch cutting and the Hyo com. says he has his water.

So act according.

Respt Yours I. Owen Bullock
