Burntfork, Wyo.
June 8, 1958.

Mr Donald C. Norseth

Dear Mr Norseth.

I received the Priority schedules o.k.
In regard to the runoff for Burntfork Creek it started May 20, and that was the first date that there was any water diverted from Burntfork.
I have been keeping a check on the gage and the second feet being diverted. I will keep that until you come out.

Sincerely,
Louis Stoll
