August 23, 1957

Memorandum of telephone call to: Emil C. Grabert, Fort Bridger, Wyoming.

In response to the attached letter and a telephone call made by Mr. Grabert, a call was made in return at 9:30 A.M., August 23, 1957. Mr. Grabert said that upon learning that no one was available from this office for the visit to Burnt Fork with Mr. Rogdale he arranged to make the visit and determine the place for installation of a recording gauge on Burnt Fork Creek near Indian Springs. The location was decided and will be installed at the convenience of the N. L. G. S. at a point immediately East of the Indian Springs main ranch building — gauge not to include the flow of Indian Springs, which come in below the proposed gauge site.
