Mt Carmel, Utah
May 30, 1937.

Mr J. H. Humpherys, State Engineer,
Salt Lake City, Utah,

Dear Sir:
you will inclosed two checks to pay last year's assessment for Mt Carmel Irrigation Company which is now one year over due. I have had a rather hard time to get it together even at this late date.

We havn't had any meeting to recommend the appointment of a water commissioner for this season that I know of as yet. We will have to see about it soon. We have had more water than usual so far this year. It is hard to get any action until the commissioner is needed on the job.

Sincerely
Birt Gardner

Long Valley
