State Engineer
Salt Lake City, Ut.

Dear Sir:- Will you advice me as to what action to take in the matter of Guy Chamberlain he has built a reservoir and held up water when it was high. Has he a right to do this without making application thru the State Engineer's office? Will it be neseccary for him to install gates to measure the natural flow of the creek before it enters his pond and after it comes out also at the intake of his canals?

I would like some information on this and if you have a pamphlet containing the law regarding this I would like to have one.

Yours very truly
W. S. Carpenter
Com. Long Valley.
