Orderville, Utah
May, 13 — 1934

Dear Sir, —

I see as much as you failed to answer my question in my letter of May 10th in regard to the dividing the water, between J. L. Bowers and myself. Each year, there is a period of about sixty days, or from the time Mt. Carmel dries their dam, until there is a commissioner appointed, Mr. Bowers has free access to my water.

Will you kindly advise me as to the proper step to take to insure this water being divided according to our respective rights, during this period

Would it be possible to have his gate set and locked as set forth, in Sec. 68, page 22 in State of Utah Session Laws 1919 & 1925

Please make this plain Mr. W. S. Carpenter makes the statement May 7th, that he has not received an appointment, as water commissioner, but ~~was~~ has been requested by your office to sign a Security Bond of $1000.

Please let me know at once as to how to get the use of my water as Carpenter still refuses to act.

Respectfully.

D. L. Foote
