Glendale Utah
June 30th 1933

State Engineer
Salt Lake City Utah

Dear Sir:- On the ~~left~~ west fork of the Long Valley creek a rancher who owns no water right persists in using water, I have turned the water off on June 7th and on this date I turned it off again on June 26th I was to his place and found he had used it but at that time there was none running on his place.

Please advice me as to what action to take in regard to this Matter.

Yours very truly
W. S. Carpenter
Water Commissioner for Long Valley
