Orderville, Utah
April 29, 1933

Dear Sir.

as J. E. Crofts was appointed Commissioner on the Long Valley creek for the season of 1932. does he act until his successor qualifyes and yet the Comissioner if not will you see that there be one appointed at once. as the water users have ~~that~~ water shut off me. I would still have water if it had was a commissioner to measure it,

I under stand it a duty
of you office to have
a comissioner the
entire season.
as doing the early
spring is when most
of my water is available
and the other users are
above me and at befeity
to take it I loose the
use of my water.
if the comissioner
acts only the season
would it be possable
to appoint one and have
him ready to act by
april 1. each season
yours truly D. L. Toate
