State Engineer's Office

THE STATE OF UTAH

Office of the State Engineer

SALT LAKE CITY

August 24, 1931

Mr. Homer W. Esplin,
Orderville, Utah.

Dear Sir:

The books of this office show that you are delinquent in the sum of $ 1.65 for your 1931 distribution assessment on the Long Valley system.

It is absolutely necessary that the water commissioner be paid his agreed compensation and expense. It is grossly unfair for some of the water users to pay promptly while others fail to pay. This situation is plainly recognized in the law which provides that upon failure to pay assessment the "State Engineer may forbid the use of water by any such delinquent while such default continues, or may bring an action in the court for such unpaid expense and salary, and such court may issue an order to show cause upon any delinquent user or users why a judgment for said sum should not be entered."

You will kindly remit the amount due at once and avoid the necessity of my having to follow out the provisions of the law above cited.

Yours very truly,

GEO. M. BACON,

State Engineer.

Second Notice.
