July 3, 1931.

Orderville Irrigation Company,
% Chris Heaton, President,
Orderville, Utah.

Dear Sirs:

RE: LONG VALLEY DIST.

Under the provisions of Section 68, Chapter 67, Laws of Utah 1919, I am herewith requiring you to install at the intake of your canal a divider which will enable you to divide out the water to which your Company is entitled and allow any excess thereover to return to the natural channel. This divider should be constructed under the supervision of Commissioner Birt Gardner and your attention is called to the provisions of this Section under which, if this work is not carried out within 30 days from date hereof, the divider will be installed by the State Engineer and the cost thereof become a lien on your lands and water right.

Yours very truly,

State Engineer.
