RECEIVED
JUN 1 1931
State Engineer's Office

Mt Carmel May 29 1931

State Engineer
Salt Lake City Utah.

I have your letter of May 27 and am glad to have you advise us you will take some steps to help us get gates, so the water can be divided and all share alike. We have talked the matter over in regards to Mr Gardner's compensation and we feel that it will not exceed $60 sixty dollars for the season.

The canals that are without headgats are the East and West Canals of the Glendale Irrigation Co with Marcellus Johnson. President.

And the Orderville Canal. of the Orderville Irrigation Co. Chris Heaton president.

If these companyes fail to put them in we will bair the expence rather than not have them we have simply got to have them. of carse we will expect you to start suit against these Company and refund the money. Mr Gardner understands what kind of gates will be required to devide the water.

Irrigation Co

Asner Lamb president Mt Carmel

thanks
