Mt Carmel May 24 1931

State Engineer
Salt Lake City Utah.

Your letter of the 21 of May regardind the apointment of the Lang Valley water commissioner for the season of 1931. I have seen the member of the Orderville and Glendale Irrigation Co. and they are willing to guarantee the full payment in case other water users do not pay If we delayed it a nother three weeks, we would all burn up. We thought we had made it clear last spring that you was to notify the water users of the time and place the meeting was to be held, for the apointment of the commissioner for this district. Our attorney tells us that, it is your duty to do so, So the three Companys wish you to apoint Mr Pert Gardner of Mt Carmel as commissioner. And feel that it is your duty to notify the Orderville, and Glendale Companyes to put in measuring gates so the water can be devided. and if they refuse give the commissioner the right to put them in to their expence.

all we want is a squar deal and with out
gates we can never get it, we have bee promised
for the lost ten year that this would be
done, so why not do it now, it will not
cost much to do it, in fact we the Mt Carmel
Irrigation Co has offered to put on in the
Orderville ditch so we could get our shair but
they have refused to alow us to do so, we want
to dry the dam and put the water through a
gate and let our water back in the creek, so we
would all shair alike, and the sain in Glendale
Is it unfair to aske that, If it would
be a big expence it might be different but
the expence will be nothing compaired to the
good it would do us on the tail end of the
system pleas have this done and notify the
commissioner to that efect.

Asaner Lamb
Mt Carmel Utah.

We have sent him up the creek and find the water out
all along the line
