RECEIVED
MAY 15 1931
State Engineer's Office

Mt Carmel May 12 1931

Geo M Bacon
State Engineer.

No doubt you get tired
geting letters but you dont get any
tireder than we do writing them.
We are (my pen is no good,) having
the same trubble that we have every
spring living on the lower end of the
valley. They have shut our water
all off and we have no water commis-
sioner, we are asking you to order
gates put in so the water can be
devided we have aske for this each
spring but as yet nothing has
been done. Orderville just above us refuses to put a
gate in, (are) let us put one in) we are
asking you to have a man come down
and devide this water, our crops depend
on it as water is very low, we have
aske for this each year for 10 years.
to have gates put in, and each year we are
promised it well be done, now do it,

we have spent the day quarreling over it with no rugets, the ditches all up the line have plenty of water but we havent enough to water with

If it is left up to us to divide the water it will never be done, it will be a gessing game, cant you come down are send some one at once are appoint a temporary water commissioner untill one can get one chosen by the Three Irrigation Cos Bridgeville, Glendale and Mt Carmel We would like Bert Gardener to act as he lives on the tail end of the ditch. This letter was ordered writen by the Mt Carmel Irrigation Co.

Cosmer Lamb President and Sec.

Dont put us off any longer do something for us.

President of Mt Irrigation Co
Cosmer Lamb.
