THE STATE OF UTAH
OFFICE OF STATE ENGINEER
SALT LAKE CITY

WAYNE D. CRIDDLE
STATE ENGINEER

May 2, 1960

Mr. Ray. S. Schmutz, Secretary,
Virgin River Water Users'
237 South First East Street
St. George, Utah

Re: Virgin River Distribution System

Reference is made to your letter of April 27, 1960.

You report that the Water Users' Committee established a program, whereby the Commissioner should make one trip in April, two trips in May, and be on call the remainder of the year.

It is noted that you have not set a per diem wage scale and apparently this was neglected in the annual meeting.

This office has requested from the Commissioner an annual report of all water use, and we would question that the information necessary could be gathered and the report compiled on the schedule you have set up. We would suggest a trip per week or oftener if need existed.

We will appreciate your prompt response in the matter of the number of trips to be made by the Commissioner and remuneration for each.

Yours very truly,

Donald C. Norseth,
Distribution Engineer
