Paradise, UT 84328

Dear Mr. White:

This letter is a follow-up of the discussion in the Little Bear Distribution Meeting, about the Bear River Commission discontinuance of providing gauging within your system. I have received a letter from Greg Hansen, regarding the need to continue two of the stations that the Bear River Commission will no longer gauge. They are East Fork of the Little Bear River above Porcupine and the Little Bear near Paradise.

Hansen and Associates, Inc., indicated they would keep this record during the irrigation season for a fee of $1320 per station. It will be the responsibility of the distribution system to assume the cost of maintaining the gauges.

If you have any questions about equipment and reasonable costs please contact me. Also notify me as soon as possible as to your intentions.

Thank you.
