Memorandum To: Executive Committee, Cashly Creek Water Valley
From: Wayne D. Criddle, State Engineer
Subject: Delinquent Assessments

Gentlemen:

This office has encountered some difficulty in the collection of ~~the~~ annual water assessment within your particular distribution area. ~~especially from some of the larger water user accounts.~~

These funds, ~~which are~~ used solely for ~~reimbursement of~~ the Commissioner's salary and expenses are the basic structure upon which this office accomplishes the order of the 4th Judicial Court, Civil

No. 3197, dated May 15, 1962 and become delinquent May 1st of such year if unpaid after that date.

Recently the Attorney General was requested to take action for the collection of such delinquency to bring your system back upon a solvent ~~which~~ this is expensive in both time and money to all concerned.

We would appreciate your assistance ~~in view of the limited funds~~ in helping us impress upon the various water ~~and purveyors with which this office~~ users the necessity of paying promptly and without ~~has available it may be advisable~~ ~~users~~ time-wasting court action. ~~to request relief from the Court and completely drop Ashley Creek Distributing in 1964~~

Your comments of such action is requested immediately.
