Memorandum To: Executive Committee of Water Users, Vernal Area Distribution System

From: Wayne D. Criddle, State Engineer of Utah

Subject: Delinquent Water Assessments

This office has encountered some difficulty in the collection of annual water assessments within your distribution area.

These funds, used solely for the Commissioner's salary and expenses are the basic structure upon which this office accomplishes the orders of the 3 and 4th Judicial Courts (Civil No. 3197, dated May 15, 1962; Civil No. 12, dated May 26, 1959; ~~and~~ Civil Order No. 1830, dated July 8, 1959) ~~of the 3rd Judicial District Court and of unpaid~~ and become delinquent May 1st of such year if unpaid after ~~such~~ that date.

Recently the office of the Attorney General was requested to initiate action towards collection of such delinquencies in order that this office could bring your distribution system back upon a solvent basis. This is expensive in both time and money to

all concerned.

We would appreciate your assistance in helping us to impress upon the various water users the necessity of paying these annual water assessments promptly and without time-wasting court action.

Your comments will be sincerely appreciated.
