Mr Geo. M. Bacon
State Engineer

AUG 20 1926

Dear Mr Bacon:-

Your letter of July 20th to which you refered in your telephone message yesterday came duly to hand. I ~~purposely~~ holed it with the thought of seeing the president of the Irrigation Co in order to get their side position but owing perhaps to the busy season it escaped my attention absolutely. However on learning last evening of your call I called both presidents and boy of the Iron Creek Co. and each was quite free to give their view. This is their defense. They say all the water of the drainage system was not assessed meaning particularly the new appropriation by the Cedar Creek High Water Irr Co. (which application they have refused to recognize and have not distributed water to said appropriation.)

The Secretary L. C. Rasmussen went so far as to say their objection was to make the fellows asking aid from the engineers office pay for the service sought & obtained.

It seems therefore to me that they do not intend to pay unless compelled.

Trusting that you will pardon my oversight and assuring you that if I can be of any further service I am yours to command.

With kind regards

I am respectfully

C. W. Sorensen
