

Upgrade from 10.2 to 10.3

Image Server will not work in 10.3.

If you have Image Server, the icon will look like this

Select drop-down on toolbar and click on "Customize"

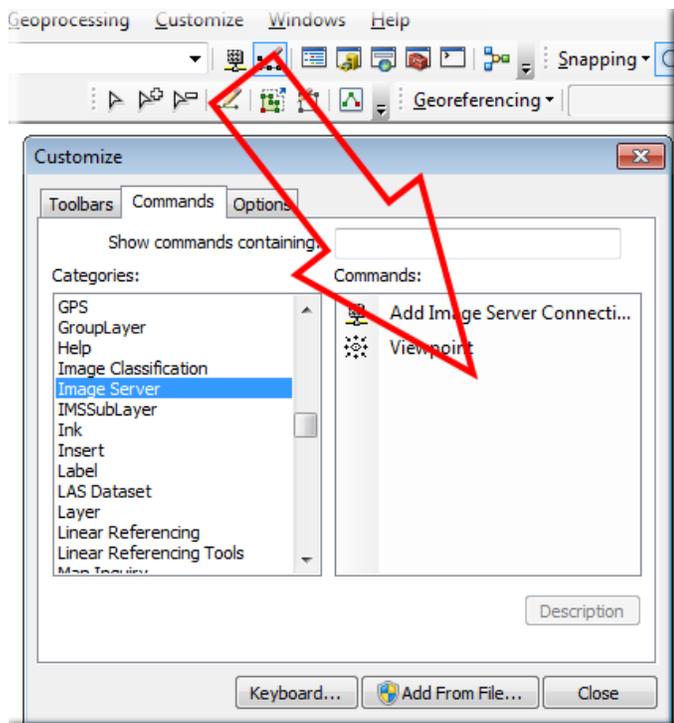

Customize Dialog box appears.

Select Commands Tab

Select Image Server,

Click and drag Icon to Commands Box

Use these instructions to get imagery

1. in ArcMap, click the *Add Data button*
2. At the top of the Add Data window, set the Look In: pick list to point at *GIS Servers*
3. Select *Add ArcGIS Server* and then choose the *Use GIS Services* option
4. Set the Internet Server URL to: ***http://mapserv.utah.gov/arcgis/services***
5. Click *Finish* and then double click the newly added item "*arcgis on mapserv.utah.gov*"
6. *From the **BaseMaps folder**, Select the base map(s) of your choice from the list below:*
 - Hillshade
 - Hybrid (streets and other vector layers atop imagery,)
 - Imagery
 - Lite (gray, muted tone)
 - Terrain (hillshade, streets, parks, forest, water, etc)
 - Topo (multiscale mosaic of USGS topo maps)
 - Vector (streets, land ownership, and boundaries)
