State Engineer
Salt Lake City

Dear Mr Bacon

In 1925 the Cedar Creek High Water Irr Co and others applied to your office for an engineer to distribute the waters of Cedar Creek & Twin Creek in Sanpete Co. We were rather late in asking and before the preliminaries were arranged the flood waters were past.

We are asking the same privilege for 1926 and asking now in order to be early enough. Will you kindly see what you can do for us the time of service will depend upon the weather but may run from two weeks to six weeks as the weather may be warm or otherwise.

Kindly advise us if you can furnish a man and at what price etc.

With kind regards

I am respectfully
H Sorensen
Secy.
