Geo M. Beacon
State Capitol
Salt Lake City Utah

Dear Mr. Beacon. You were in our city last April and we talked some on the matter of organizing the water users of Box Elder Creek into one stock Co. But as the season was advanced too far that year. it sort of died out. Now we are again thinking of it quite strong. I would like very much if you will tell us the right procedure and the first steps to take.

I belive you stated that Spanish Fork or was it Springville who had worked themselves, with your aide, out of a hole as we are in. Could I get a copy of their Constitution and by laws to study over and compare conditions.

We are going to hold our annual stockholders meeting Sat. Feb 2nd I would appreciate very much if I could get a reply by then. Thanking you for what you can do for us.

Yours Truly.

C. M. Christensen
