WATER RIGHTS
OFFICE

Mr. Don Norseth
Room 442
Utah State Capitol Bldg.
Salt Lake City, Utah

Dear Mr. Norseth:

Re. Boulder Hearing
Aug. 22, 1972

Two photostatic copies are enclosed. One is taken from the watermaster's record-keeping notebook from the pages defining the water-rights in the system as contained in the books of the company. The other is taken from the decreed water rights as determined by your office with some penciled-in notations of transactions occurring since 1966. If you need further information or explanation will you please advise us.

Since your visit here we have finally received repair parts and installed two meters in the sprinkling system. The long delay in getting these parts from the Rockwell Manufacturing Company needs a better solution than we have had in the past and we are particularly interested in learning more about some of those other meters that you mentioned and where they might be obtained. Also the name and address of the man in Beaver, Utah who makes repair parts for meters.

Yours very truly,

Boulder Irrigation & Water Development Co
