Mr J. H. Humpherys.
State Engineer
Salt Lake City - Utah

Dear Sir:

I have received the water laws and transfer blanks you sent, and have got the books and pamphlets you advised me to get for measuring water and etc.

When Mr. Morgan was here, he said, "Mr German would be in this month." Could you advise us about the date he will come. I feel like it is necessary to have your representative come in so we can get matters properly adjusted.

We have been working on our water projects. Such as putting in dividers and etc.

Have you a transfer made by Henry J. Haws to Niels Jepsen for 1/4 second ft. of water. The above mentioned water was to have been transfered from a point in Sec. 13 to a point in Sec. 1 or at about that point in Township 33 S. over

Range 4 E.

Mr. Jensen said, he left the transfer at "The Richfield Commercial and Savings Bank." Richfield Utah.

This transfer was said to have been made about a month ago

If you have any record of this in your Office, please notify me.

Yours truly.

Francis Lyman
