May 16, 1934

J.H. Humpherys.
State Engineer
Salt Lake City, Utah.

Dear Sir:- On May 11, 1934 P.J. Leavitt and Burnell Baker of Boulder chopped the weir out of my devider and wrecked the measuring device I had installed for measuring the water at point of diversion on application No. 10338 - Certificate No. 2149-a. I had about .864 C.F.S. water out on my land at the time they destroyed the weir.

I went 7 mi. to the Justice of the Peace for the purpose of having a complaint made out against them (as once before these two persons helped destroy a divider of mine at same point of deversion) but the Justice had no blank forms and I do not know just how to word a complaint and the other papers necessary. and there is no attorney here that I could

get to fix up the necessary papers, but I am going to try to do some thing about the weir etc.

Yours Truly
Mrs Annie C. Hansen.
