Boulder, Utah,
July. 14, 1930.

State Engineer.
Salt Lake City.

Dear Sir:-

I am Writing you a few lines in regards to the water.

I have been using Water on my place for about 18 are 20 years.

There is other parties hear that clame I have no right to any water, they keep shetting me dry, all I use the water for is culnery use and I can not get enougs for that.

One of the parties that takes the water lets the water run straight through his place and ~~nevers~~ tends it about onece a week he never raises a thing, he does not even live one his place, nor even rais a load of hay.

What would I half to do to get a little stream of water?

answer by return mail.

Yours Truly
Albert Coleman
Boulder.
Utah.
