Provo Utah August 6 1918

Hon Senator King

Dear Senator I am very thankful for your letter and that you keep my papers so you can help to get the right them on May 18 1916 at 2-0 clock in Heber Courthouse I sued. them for the ditch trespass and for going against the law, they used my witnesses to appraise my land instead of testifying for me that they were there as witnesses for the posting of my notices, they destroyed two of my notices that I posted, and used my land unlawfully and without my permission four years before they Condemned the land. the first day in Court they talked only about the ditch but the next day 19 May they changed the case without my knowledge and Condemned the land instead of continuing the case about trespassing and going against the law that case was Judge Morgan of Provo.

On August 21 1916 was the Court held by Judge Morse from Salt Lake about the water in Deer Creek, you have the Certificate showing witnesses which Judge Morse signed but Judge Morses Court is never ready it will be held again in Provo September 2 1918 no change is wanted I just want to get what is right.

Again if Judge Morgan
can take my land 660 feet long by 8 feet
on each side of the ditch or canal, as they
called it for four Dollars, without jury,
unlawfully, wrongfully, fraudulently, with
false statements, then Judge Morse can righteously
give it back to me and pay me back all my
expenses Mc Ewan first took the water in the
lower ditch then constructed the upper ditch without
my permission and used it unlawfully four years
before they Condemned it, it was all unlawful and
therefore the Supreme Court excused themselves
that they could not fix it. they said themselfs 12 Month
under advise, they kept my papers four months in order
that I might get left with my papers to Judge Morse
then Judge Morgan kept them 20 day more, and
denied he got them. I was in Salt Lake at Capitol
two times to get my papers after they told me they had
sent them to Judge Morgan in Provo, but he Denied
it I was in Heber and telephoned from one place to
another. the last day Judge Morgan gave them to the
Clerk in Heber after the night Court closed, I sat
around the Court House grounds at Heber a whole day
waiting for the paper and at night after I getting the
papers I went to Provo by Auto and next day at 7 a. m.
I went to Salt Lake to see Judge Morse
