26	457	34	40	531
27	468	34	40	542
28	488	35	40	563
29	520	36	40	596
30	630	36	40	706

Note: Forty (40) second feet is added to the observed flow, which is intended to give the Natural Provo River in the Utah Valley the amount available for irrigation and power.

Total 15,333

Total acre feet 30,666.

Maximum 706 second feet.

Minimum 415 " "

Mean 511 " "
