State Engineer:—
Mr Bacon

Dear Sir:—

I want to let you know that I cant get any water. To-day I was supposed to get my at 6⁰⁰ A.M. now it is 10⁰⁰ A.M. and no water has come yet. I went to all the springs with a witness and we found all the water damed off. I wanted to break the dam's but My witness say's no. So we left them all as we found them to avoid trouble. I hope that you will fix every thing up as soon as possible.
