Helper July 16/28

M. Baker

State Engineer

Salt Lake City

Dear Sir —

I wish that you will take hand s on Eleganti peoples for the violation of the State Law s against me on irrigation matter —

I have a man emploied to irrigate the farm and the man can not get water from above Eleganti must every days — And soon as any one of the Eleganti family see my man going up to see the wrong why can't get eknough water — they ride in hastly back to open the ditch so to have the water ran freely and in absolute

out let -
But when I or my worker
can't go ther. I can't get
no water - They are using
the water that belong to
me - I want, if you
please that you order
a stop of such abuse and
order them to close their
Crystal Spring in a pipe s
so no other draining water
on that creek can be used
under the excuse of Crystal
Spring water -
That Eleganti peoples are
giving me all kinds of
trouble nearly all Summer -
I wish that State will take hands
on that - That is violation of
State Law - ~~Respe~~
I have no money to pay a
watchman - that is to much for me

I only want the water that belong to me
Below Goats Spring they have built a
bigger dam they had last year Very Respectfully

Maria DeMarco
