Helper Aug. 31 /27

Mr. Geo. M. Bacon
State Engineer

Dear Sir -

I have received your answer Aug. 29 in wich you state to have a man to watch our waters at Spring Canyon - That is impossible -

Please to take care ~~afd~~ that trouble - and I am sure that you can solve this question by using the jurisdiction of your office ~~an~~ by ordering Mrs Elegantis to have Crystal Spring water in pipes for a certain lenght untill get inside their irrigating places - And that way

your will stop all our trouble and I will not bade you any more - You have the authority to order that to Eleganti people's, without any court proceding's - [redacted] you will please to do me that favor that helps us so greatly for ever - and I will be very gratefull to you - Take litle more patience on me and judge this things over accordingly and I am sure that you will order Elegantis to pipe their water trough our right of way - in order to stop that kind of crime -

Respectfully yours

Maria Demarco B-27
