State Engineer
Salt Lake City

Dear Sir -

Once again I want to ask you a favor that you can let me have -

I wish that you settle the question of my water with the Elegante peoples.

The Agricultural Agent has proved to be doubtfull on his work. and I tell you why:

The 10th of the inst. month, then the 12. the 16th he whent up to find out the shortage of the water that belong to me and when he came by every time I he remarked to me that

the water wass open free for me, But I walked up to the line and I found out that the Eleganti peoples had the water all in their land and lived me without a drop-

Now this is not a matter of easy thing. But them peoples are violating justice ~~as~~ to go against my interest and seem to me the agricultural agent play some trick on me- You know amuch land I have- amuch water I have please to intervene in that case give me some good sugestion & work to have the interference

of the law. I have none that can help me in any way. I am a lone women and ambitious of agricultural industry to make living. You can spot out the differences among us. I only claim the water that belong to me. Why thus peoples that are living above abuse on my right. Please take steps once for ever.

You will please to order them to Eleganti, to switch of Crystal Spring in pipes. Other ways they take chances in leting Crystal Spring down the wash

in order to take mor water
with it. water that belong
to me —
If don't do that will be
serious ~~to~~ trouble ~~some day~~
to come —

Respectfully your's

Maria DeMarco
