Fuper Utah July 20/27

Mr. Baker

State Engineer
Salt Lake City

JUL 28 1927

Sir -

I am over again to ask you the favor to help me against the lawless Eleganti peoples - Yesterday and to day again I went to find out the shortage of water and I found out that all water above Crystal Spring and the water below Crystal Spring are used by them in the bigest part - Allaway them peoples give me a continous trouble with the water -

Another question is that I don't know where they use that much water - Even at night time they are wasting my water

I am trying to sale the sale
the farm to some one so
I can get out of trouble, and
as they find out such questions
right along they back from buying
We are two womens and can
not go along with the farming -
and if is any chance to finish
this trouble I will sale the farm
in short time -
I wish if you can force them
to conduct the Crystal Spring
water trough pipe, — otherway
this trouble will not finish for
next 100 years
Please to intervene and do
the best you can for me

Respt
