JUN 29 1927

Dear Sir:
I am writing to you again because I havent had answer from you. I dont know what I have to do for I am in such trouble that I cant explain neither my feelings against it.
Now Elegonti they have taken the wash water and in the day they separate it for them and I and at night they take it all. as I told you before I cant expect to

keep a man as guardian
at day and one at night,
all I ask for you to
put a stop in your
manner or my manner
will be different for
I am in such trouble
I am full and full enough
and can't stand nor will
not stand for it. for it
is enough for if how
would you feel if you
were eating after a
good days work and.
some one like them would
come & take the whole
table from you. and you

would have to go with
out? just emagine it
yesterday (Frank) the
man that is in port
with me went up to
the spring to examine
the water and an old
man witch ~~stoys~~ I
think stoys with Eligonti
saw Frank coming ~~and~~ to he
ran to the rock wich
~~Eligonti had~~ Eligonti put
there and rolled the
rock away and also took
an old rag wich was
under the rock and
through it to

after Frank come and
was turning out of
sight. the old man put
the rock & rag back.
I am writing always
to you because when
I telephone to Wayman
he gets sore and when
we go to the office he
does not even like us
to talk with him.
that is not the way
to do. for he should
give us satisfacion as
well as he does to Eligontis
~~Yours Truly~~
To day I was ready to

come and see you so
I could talk to you with
my own mouth and we
had lots of water and floods
and I was afraid of the
train for it done damage
on the tracks. but before
or after the 4th I will
be there. if I can come.

yours Truly.
